

## OnGuard interface to G-Connect G-Connect - On Guard

### G-Connect – OnGuard

The option enables the mutual exchange of alarm messages between the OnGuard access control system and G-Core. This enables reliable linking of access control events with matching video images in G-Core. - Licenses: G-Connect Integration Service (8.32001) and Option G-Connect - OnGuard (8.32002) are required.

Turnkey delivery and installation or turnkey configuration and set-up
