

E5-BNC Adapter G-Cam/BNC-001

G-Cam/BNC-001

This adapter simplifies the visual alignment of the camera image section. The two-pole connector fits all fix domes of the new 1080p and 4K cameras of the E5 series. The other end consists of a BNC socket, which can be connected to an analog video input using a standard BNC cable (CVBS, 75 Ohm, BNC plug). Note that the stream parameters of the connected camera are set in such a way that the analog Video output is also supported. Cable length approx. 27 cm.

Turnkey delivery and installation or turnkey assembly and connection

Model: G-Cam/BNC-001

Brand: Geutebrück or equivalent
