Adding IP Cameras

Please double click at desktop on the G-Set icon to open the G-Set configuration menu.

Step 1: Connection to a server

To connect G-Core with a (local or remote) server,

- Double-click on a connection available under Connections in the selection menu or
- In the Connection wizard dialog select a server from the list and click on the icon. ٠
- By clicking Connection wizard, you can also configure new server connections. .

Step 2: Activation and configuration of Media channels.

Left mouse click at Media channel wizard and click on tab Cameras opens the following window

1 Cameras 2 Media channels			
	J. Summary		
CAMERAS +	G-Cam G-Cam 0		
Preview 🗶 🗸	Channel settings	Camera settings	Camera preview
Refresh	Channel: < <u>G-Cam 0></u>	Camera type: G-Cam	
<search> Q</search>	Global number: <>	DHCP: X V	
▲ G-Cam <£50-3250> 🗶 🗸	Channel group:	IP address: 192.168.0.250	
	PTZ:	Subnet mask: 255.255.255.0	
	Camera name: ESD-3250	Username: <using default=""></using>	
	Firmware: gb20150312NSZ	Password: <using default=""></using>	
p G-Cam <8₩PC-34 🗶 🗸	Mac address: 00-D0-89-11-07-73	You may change the camera IP settings here. Camera settings will be updated directly.	

The Media Channel Wizard automatically searches for existing network cameras and displays them in the first column.

Cameras for which access rights are available are also displayed with a small camera image.

You can now select the desired camera by clicking the tick box (changes to green) and edit the general information and the camera-specific data.

Cance												Back		Save & Finish

Please confirm your settings by clicking the button Save & Finish.

Finally, with click at Hardware and Media channels, you can check whether the camera is present in the network and the media channels are configured correctly.

Commissioning an IP Camera in G-Set

ſ	
I	
ι	

NOTE: For correct installation of IP cameras one Option G-Core/CamConnect must be available for each camera.

Available options are shown in G-Set at General settings - Options.

Required options can be ordered using General settings - Options in G-Set. After clicking on Options, the options dialog opens with the first tab, which shows an overview of the available options.

The dialog shows the four tabs Options, Dongles, Request new options and Failed requests. Request new options

New options can be requested using this dialog. When you click the dongle that will be assigned the new options, an URL appears in the field Follow this link to purchase new options. Right clicking this URL opens a menu in which the URL can be copied, saved or opened in the default browser. After passing the URL to a browser, follow the instructions on the GEUTEBRÜCK website.
