Full-HD Speed-Dome Camera with IR-LEDs G-Cam/ESD-4630

The Speed Dome Camera with Full HD resolution and infrared LEDs is suitable for outdoor use even in absolute darkness. With the 360 degree panning and freely controllable lens with a tilt range from -20 to 190 degrees, you have the perfect overview. In addition, 256 fixed positions can be set, which allows a targeted control of certain scenes. With the 40x optical zoom, distant areas will not be unnoticed and can be controlled in the usual high quality.

- Surveillance along external facades.
- Extensive terrain that requires a high zoom.
- Monitoring of several areas with only one camera.
- Tracking of moving objects in the area around the camera.

!! Note: The article is now delivered without audio / analog video !!

- This remote controllable Full-HD Speed Dome camera enables the targeted manual tracking of persons or objects in outdoor areas.
- The integrated infrared LED lighting provides even in absolute darkness sufficient illumination at a distance of up to 150m for optimal image results.
- Pan / tilt speeds from 0.1°/s to 90°/s with manual control allow precise operation even by inexperienced users.
- Fixed positions can be set by alarm control or manually with a thread rate of up to 400°/s.
- Further pan/tilt functions such as tour, auto-swivel and patrol are integrated.
- Integrated electronic image stabilization, which stabilizes shaky video images caused by vibrations.
- Extended range of functions compared to ONVIF connection due to own G-Core plugin.
