

## Integration Server G-Link

- Connection of third-party systems with little effort (e.g. fire alarm systems, access control, intrusion alarm systems, video analysis etc.)

- Flexible system - integrations not yet available can be developed on customer request.

- Easy assignment of event messages between third-party systems.

- Intelligent processing and linking of input and output contacts of the third-party systems.

- Protection of systems by redundancy mode with two synchronized servers.

G-Link connects all your security systems, e.g. fire alarm systems or access control systems, etc. to a centrally operated, uniform overall system. As an automatic translator, the software transcribes the fundamentally different event messages and thus makes them transferable and most importantly integrable for all systems connected to the G-Link server.

- Connection to various third party systems.
- For setting up a heterogeneous system landscape with operation from one system.

# Technical data

The base G-Link server software is a Windows service that works without an active desktop. The software should be installed on a separate Windows server (PC) on which no other applications are running.

#### G-Link software options (interfaces to third-party systems)

We are constantly developing new G-Link software tools for connecting numerous additional third-party systems. Please select your desired software option from the current list on our homepage: [www.geutebrueck.com/g-link](http://www.geutebrueck.com/g-link)

Here are some examples of available software options:

G-Link Basis-Software	Order No.	Manufacturer	Product	
G-Link Server	3.06530	GEUTEBRÜCK	G-Link Server Software (Dongle)	
G-Link Software Optionen	Order No.	Manufacturer	Product	Software
G-Link/Activation	8.34148	GEUTEBRÜCK	G-Link Integrations-Server	Software option for G-Link Activation
G-Link/Upgrade	8.34149	GEUTEBRÜCK	G-Link Integrations-Server	Software option for G-Link Activation
G-Link/G-Core	8.34172	GEUTEBRÜCK	Video Management System: G-Scope	All versions
G-Link/GSC	8.34155	GEUTEBRÜCK	Video Management Hybrid Systems: GeViScope / re_porter	All versions
G-Link/GeViSoft	8.34156	GEUTEBRÜCK	Security Management System: GeViSoft	All versions
G-Link/MaxessServer	8.34150	Maxxess	Access Control System: Maxxess	Maxxess Access Platform v 4.2 or higher
G-Link/FCWnx	8.34151	FCWnx	Access Control System: FCWnx	Fcwnx Access Commander 7.5.1 or higher
G-Link/FibersensysAPU	8.34152	Fibersensys	Fiber Optic Intrusion Detection: Fiber FD3xx-IP, FD500D-IP	FD3xx-IP, FD500D-IP
G-Link/CIASIBServer	8.34153	CIAS	High-End Perimeter Control System: Ermo 482X Pro, Ermo 482, Coral, Manta, Ermusa, Minermo, Darwin, Darwin, DT, Newton2, Newton Plus, Alfa, Murena, ISC Cable	Up to 32 IB servers. Every IB server supports up to 128 (0 to 127) IB devices.
G-Link/iOmniscientServer	8.34154	iOmniscient	Video Management and Access Control System: IQSeries 4.0	IQSerie 4.0 or higher
G-Link/InnerRangeInsight	8.34157	Inner Range	Security and Access Control System: Insight Professional	Insight Professional Version 5.1 (12437) or higher
G-Link/HikVisionCentral	8.34158	HikVision	Digital and Network Video Recorder System	All versions
G-Link/DedicatedMicros	8.34159	Dedicated Micros	Hybrid Recording System: Dedicated Micros DV-IP RT	All versions DV-IP RT
G-Link/Jacques	8.34160	Jacques	Network Communication System: Controller: TCH-2MXH   51660, Master : IPM-350   51516, Intercom : VSL-361W+   51676	IPM-360   51516, IPM-360H   51533, IPM-360G   51534, IPM-360GH   51535
G-Link/Gallagher	8.34161	Gallagher	Gallagher Access Control System	Versionen ab 7.10
G-Link/Protege	8.34162	Protege	Access Control System: Protege GX DIN Rail System Controller	ProtegeGX DIN RAIL Single Door Controller
G-Link/DSCAlarmPanel	8.34163	DSC (Digital Security Controls)	Facility Protection: All versions	All versions
G-Link/ASVChannel	8.34164	ASV	Maritime Video Surveillance System: ASV Software	ASV Software Development Kit 1.6.2 or higher
G-Link/MicrosServer	8.34165	Micros	Hospitality Management System: Micros 8700 and 9700	Micros 8700 or higher
G-Link/IGTServer	8.34166	IGT	Gaming Technology System: DACOM Paging Interface	All versions
G-Link/SouthwestRPMII	8.34176	Southwest Microwave	Perimeter Fence Detection System: Southwest Microwave	INTREPID™ MicroPoint™ I or higher
G-Link/ModbusTCP16Input	8.34167	TCP-Protokoll	All versions	All versions
G-Link/ModbusTCP16Output	8.34168	TCP-Protokoll	All versions	All versions
G-Link/SMSModule	8.34169	SMS-Protokoll	All devices with AT commands	All devices with AT commandsKommando

Do you need to integrate a third-party system that is not yet listed or do you have questions about existing integrations?

Our developers in the Integrations & SDK department would be happy to consult you personally and answer all your questions regarding integration and interfaces.
